Serving on the Civil Grand Jury provides a unique opportunity to learn about the workings of our local government. [Click here for more information.](#)

The Civil Grand Jury is part of the judicial branch of government – an arm of the court. Each year, the Civil Grand Jury closely examines local governmental agencies and investigates citizen concerns. Past grand juries have investigated diverse local issues such as health care, land use, water supply, public safety, jails and prisons, emergency medical services, education and government finances.

Through its annual report the grand jury makes recommendations to help local governments serve all of us better. The annual report of the Civil Grand Jury provides a foundation for discussion and action to improve local government services.

Citizens interested in serving on the Civil Grand Jury are encouraged to submit an application by May 7, 2021 and attend one of the two informational and interview sessions to be held via zoom:
